COMPOSITE DOOR CLEANING GUIDE

The key to keeping your new door
looking great

YOUR NEW DOOR LOOKS GREAT AND WE WANT IT TO STAY THAT WAY.

Everything about your Crystal GRP composite door has been designed to be easy to maintain.

There will be no more fiddly dusting around the decorative glass leading and no more rubbing down.

Our doors also give you;

- Stunning Aesthetics
- Unparalleled Security
- Exceptional Durability
- Excellent Weatherproofing
- Superb Sound Insulation

HOW TO KEEP YOUR DOOR LOOKING GREAT FOR LONGER

To prolong the life of the surface, a small amount of care and attention is needed. How often will depend on where you live. In a coastal or heavily industrialised area or near a main road, cleaning may need to be more often. We recommend that you only use warm soapy water (washing up liquid is suitable) with a lint free cloth and wipe dry with a soft clean cloth.

PLEASE DO NOT...

- Use abrasive cleaners or scouring pads
- Use pressure washers or steam cleaners
- Apply any type of bleach or solvent
- Apply any adhesives of any type or tack
- Have any contact with any sharp objects

If your door suffers accidental everyday damage, such as dents or scratches, then various surface maintenance kits are available.
