Why Crystal?

Why do developers, contractors and general builders choose Crystal?

Crystal produces a wide range of made to measure products that can be used in residential and commercial projects. Founded in 1990 Crystal is the UK's leading fabricator of PVC-U and aluminium windows, doors and roofing systems and are certain to have the right product to assist you in your build.

Our huge range of products are manufactured in a state-of-the-art facility in Letchworth, Hertfordshire to the highest quality standards and are fully accredited and UKCA Marked.

Our team are experienced in supporting small or large-scale and complex build projects - so whether your installation is PVC-U or aluminium we can help plan your property development project in line with strict budgets, guidelines and most importantly, deadlines!

Fully supporting contractors with specification through to final sale and after sales service

Our experts are on-hand to give support and guidance on design, compliance, technical and specification. Our complimentary service ensures you choose the right window and door solution. Enjoy peace of mind that we will support you with advice, energy ratings, specifications and product suggestions that are compliant with industry standards, meet the end-user's expectations, and help installation go as smoothly as possible.

Plan take off service

We always like to make things easy at crystal and our plan take off service is no exception. Before you can prepare your tender you need to convert the information on the plans to a cost. Crystal can undertake the 'take off' of made to measure PVC-U and aluminium windows, doors, and roofing systems from your plans - and then send you a quotation. This service is free of charge. Let Crystal save you time and money, simply send your plans to gareth.hains@crystal-direct.co.uk and let us do the rest.

Bespoke made to measure products

Durable, secure and low maintenance, our made to measure products are available in a huge range of styles and colours. They are made specifically for you and are made to measure for a perfect fit.

Building control compliance

Building Regulations are a set of standards designed to ensure the health, safety and higher standards of living for housing. No matter what type of product you are undertaking, whether it's a new build or extension, most construction work will require Building Regulations compliance to some degree. At Crystal we can assist you to ensure you are compliant at all times.

Accreditations

Our PVC-U window and door profiles carry a 10 year manufacturer's warranty. They are BSI Kitemarked and BBA assessed, with manufacture and supply carried out under ISO 9001 quality management systems.

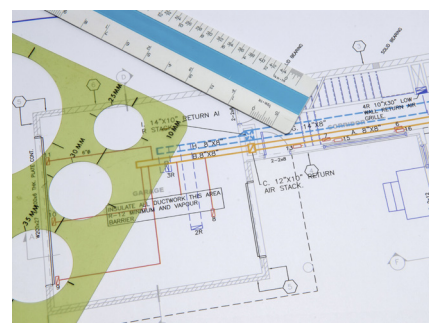

Every aspect of the manufacturing process, from blending to extrusion, injection moulding to foil finishing, is tested to ensure a consistently high quality product. With the latest technologies and Modern machinery, we are able to supply products which are consistent in colour, shape and finish. Using market leading PVC-U profiles, Crystal is able to meet the most stringent industry standards and offer our customers a wide range of important accreditations.

After sales care

As a business Crystal understands that its responsibility doesn't end when products are installed, and a dedicated technical team is available to provide support and ensure customer satisfaction.

Delivery to site

All of our products are made for you, made exactly to your specification and as a result we are extremely careful when handling your products at every step of the delivery process and our goal is to ensure that you are a satisfied customer on delivery day. Products will be delivered free of charge to your site. All vehicles in our fleet are fitted with hi-tech tracking devices, so you will always know the location of your products and when you can expect to receive them.
